

Framing the Future

Engineered for durability and style, Fenesta's products enhance contemporary architecture—spotlighting design leaders who are shaping tomorrow's spaces

Fenesta, one of India's largest windows and doors brands, has built a reputation that stands for innovation, quality and trust. It offers a comprehensive range of uPVC and aluminium windows, doors, solid panel doors, and facades, all engineered to withstand India's diverse and extreme climates. Built for durability and minimal maintenance, Fenesta's solutions

are designed to stand the test of time. Fenesta's end-to-end service model ensures a seamless, customised experience from the initial survey and design to manufacturing, delivery, installation, and after-sales support. This holistic approach promises a hassle-free experience and complete customer satisfaction. Through its "Framing the Future"

initiative, Fenesta spotlights renowned architects shaping tomorrow's spaces, emphasising on the brand's role in transforming the design landscape, where form, function, and finesse converge. By collaborating with these architects, Fenesta continues to drive innovation and redefine how windows and doors are integrated into modern architecture.

AR. DEV KUMAR AND AR. NAVEEN KUMAR DESHPANDE

PRINCIPAL ARCHITECT AND PARTNER

Ar. Dev Kumar and Ar. Naveen Kumar Deshpande, co-founders of Maya Architects, brings over two decades of experience in diverse architectural typologies. Ar. Dev Kumar, an alumnus of R.V. College of Engineering, specialises in client-focused design and project management. Ar. Naveen Deshpande, with a strong foundation from STUP Consultants, excels in handling complex, multi-sectoral projects across India.

HOW DOES FENESTA ALIGN WITH YOUR DESIGN PHILOSOPHY?

Driven by a design philosophy that emphasises surprise, intimacy, and uniqueness, each project is meticulously tailored to meet the specific needs of the client. Our approach is rooted in well-conceived concepts, innovative solutions, and a deep commitment to advancing design. These values

align seamlessly with what Fenesta offers.

WHAT ASPECTS OF FENESTA DO YOU FIND MOST INTERESTING, AND WHY?

Fenesta stands out for enhancing design goals while allowing creative freedom. Its innovative systems offer thermal comfort, noise reduction, and durability—perfectly aligning with our commitment to climate-responsive, sustainable architecture. With versatile configurations and finishes, they integrate seamlessly into diverse styles. Proudly 'Made in India', Fenesta products reflect local pride and dependable quality that resonate with our values.

WHAT ADVICE WOULD YOU GIVE HOMEOWNERS AND DEVELOPERS WHO ARE CHOOSING WINDOWS AND DOORS FOR THEIR SPACES?

Prioritising long-term performance means choosing durable, energy-efficient materials and finishes that stand the test of time. Low-maintenance options save time and resources, while design flexibility ensures these elements align seamlessly with your vision.

WHAT ARE KEY TRENDS IN FENESTRATION THAT EXCITE YOU?

We are dedicated to the exploration of cutting-edge innovations such as smart glazing, which adapts to changes in light and temperature. These advanced systems enhance comfort and significantly improve energy efficiency—benefiting both the environment and user well-being. Such solutions are key to fostering a more sustainable future.

AR. ANISETTY LAVANYA AND AR. KRISHNAPRASAD R.

CO-FOUNDERS, PRALAV ARCHITECTS

Ar. Anisetty Lavanya and Ar. Krishnaprasad R, founders of Pralav Architects, began their practice in 1998 with a vision to seamlessly integrate Vaasthu principles with functional architecture. Guided by the philosophy of "form follows function", their design journey has evolved towards creating spacious, airy environments with tall openings, wide fenestrations, and high ceilings that enhance spatial experience.

WHAT IS YOUR APPROACH TO A PROJECT—FROM CONCEPT TO EXECUTION?

We begin by understanding the client's requirements, then apply our design philosophy to develop a conceptual design. Through close collaboration with the client, we refine and finalise the design. During execution, we integrate the latest technologies

and materials wherever possible—while staying true to the principles of Vaastu and architectural integrity.

TELL US ABOUT THE PROJECT FEATURED IN THE PICTURE AND HOW FENESTA CONTRIBUTED TO ITS AESTHETICS AND FUNCTIONALITY.

The client envisioned a retirement home centred around a courtyard, blending Indian cultural elements with a contemporary aesthetic. The design incorporates traditional architectural principles, using the courtyard to bring in natural light and ventilation while serving as a visual focal point. Warmth and character were added through wooden artefacts and handpicked rugs from Indonesia. Fenesta was our first choice for creating wide 10-foot openings with two sliding shutters, seamlessly connecting the indoors to

the courtyard and enhancing the sense of openness. A standout feature is a floating balcony between the living and dining areas, offering comfortable seating and a serene view of the courtyard—creating a perfect indoor-outdoor transition.

WHAT ASPECTS OF FENESTA DO YOU FIND MOST INTERESTING?

The wide variety of designs, colour options, and customisation possibilities with Fenesta are truly exciting. Their hardware quality is exemplary, especially in UPVC-based openings where ease of operation is crucial.
