

Spaces, Reimagined

Homes today need more than walls

Modern homes' interiors are not defined by walls, but by the way spaces flow into each other. A living room that opens into conversation. A workspace that invites clarity. A dining space that gathers people without drawing lines. Our systems create these seamless transitions. elegant glass, refined aluminium, precision detailing, spaces that remain connected yet distinct

Define spaces. Don't close them.

With Fenesta Internal Partitions and enclosures you divide spaces without blocking light or disrupting openness

Telescopic Slider

Telescopic sliding systems are designed with multiple panels that slide together to one side in a smooth, synchronized motion. By dividing the doors into slimmer sections, they allow for wider openings while maintaining ease of movement making spaces feel more open, connected, and effortless to use.

Max Width (mm)	Max Height (mm)	Max Weight (kg)	Glass Range (mm)	Design Typologies
1200	3600	120	8-10.5 mm	2S1F, 3S1F, 4S1F, 5S1F, 4S2F

*F = Fixed Panel | S = Sliding Panel

Invisible Slider

Invisible yet impactful, this sliding door system creates a seamless transition between spaces. With its ultra-minimal design, it works beautifully in tight layouts—ideal for clean, single-opening transitions.

Max Width (mm)	Max Height (mm)	Max Weight (kg)	Glass Range (mm)	Design Typologies
1000	2700	120	8-10.5 mm	Single Panel

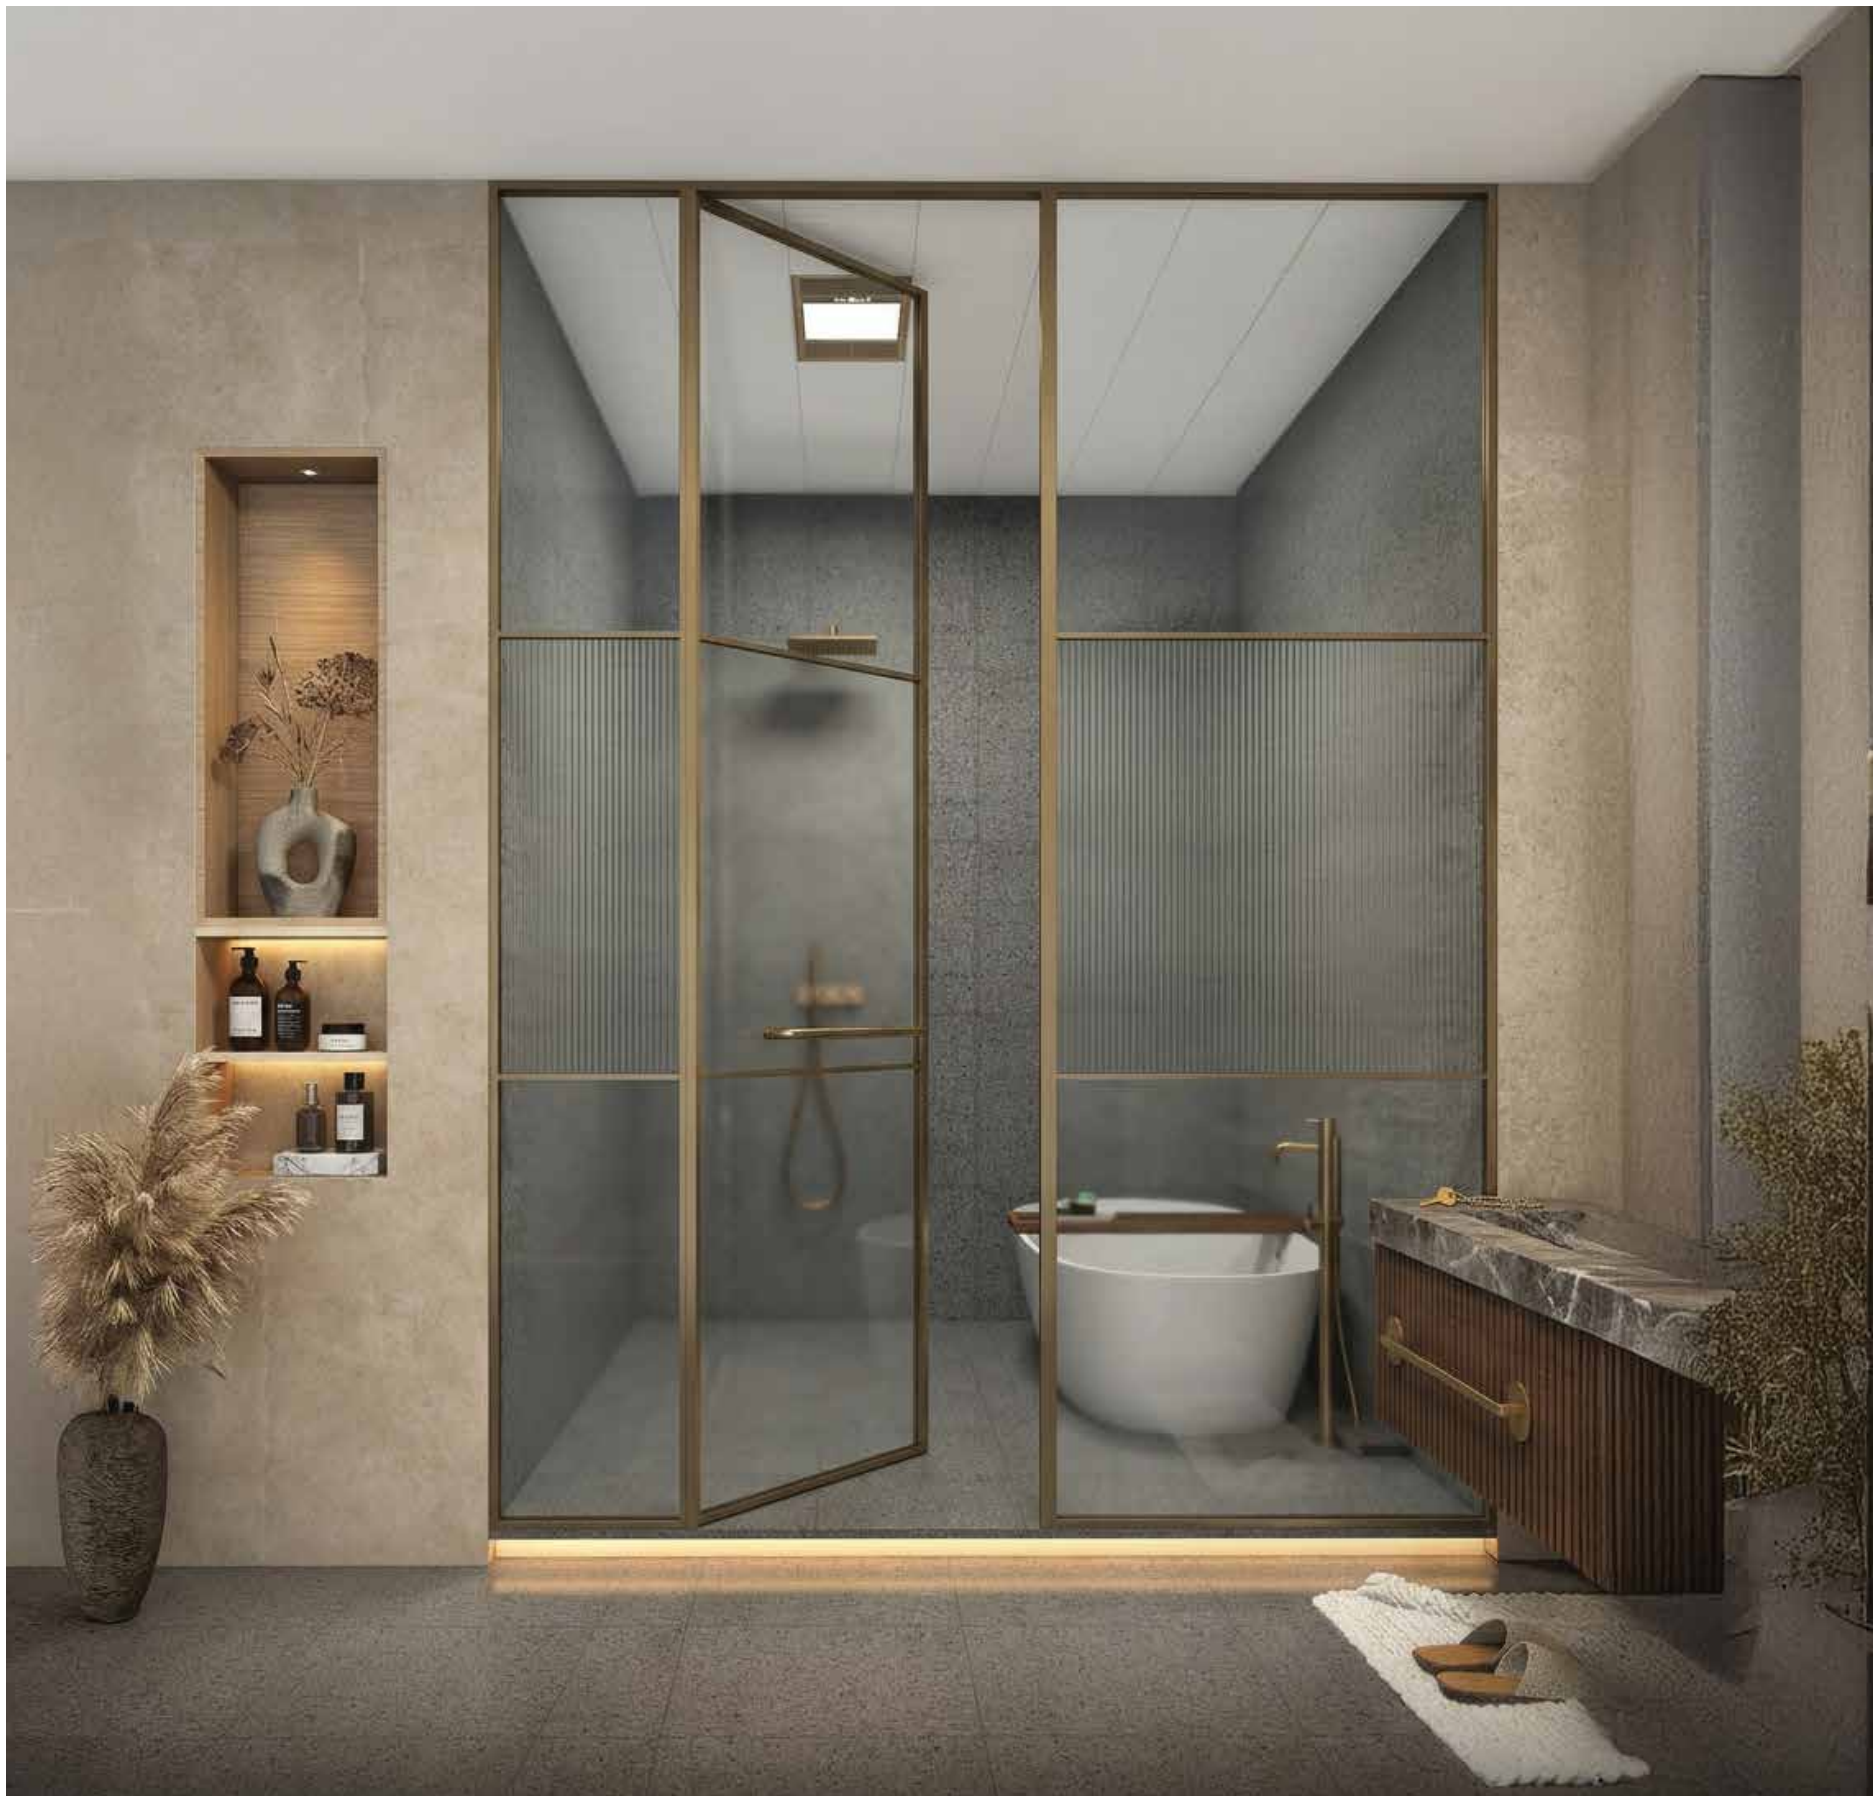

Swing Doors

Swing doors are systems that open inward or outward with a floor spring mechanism, offering a timeless design with smooth, effortless everyday use.

Max Width (mm)	Max Height (mm)	Max Weight (kg)	Glass Range (mm)	Design Typologies
1200	3600	120	8-10.5 mm	Single Panel, Double Panel

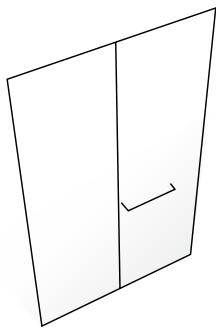

Shower Enclosures

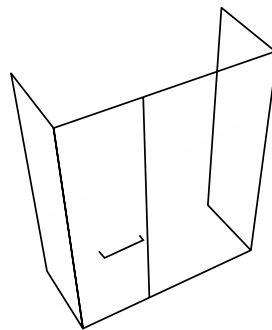

Shower enclosures create a defined, water-tight bathing area using a combination of fixed and operable glass panels. They keep the space dry, enhance safety, and bring a clean, modern look to the bathroom while making efficient use of space.
